PP has proposed entire mandatory RG area of 3105.68 Sq.m on ground against the required RG 3044.25 Sq.m and no part thereof is located on podium as mandated by National Green Tribunal Order dated 13.09.2022 in Appeal No-22/2016 WZ and Hon'ble Supreme court order dated 08-05-2023. This mandatory RG area is kept open to sky and also enable plantation of trees.
4	PP to obtain concession from Municipal Commissioner, MCGM with respect to odd shape RG area proposed on mother earth.	PP has obtained the Approval from MCGM vide file no. P-9221/2021/ (354 and other)/F/North /DADAR NAIGAON/337/5/Amend dated 18.07.2023. Proposed RG on Mother earth and podium is certified vide approval

SIX MONTHLY COMPLIANCE REPORT

Proposed redevelopment of Municipal Tenanted Property on Plot bearing Cadastral Survey Nos. 437 (pt), 335(pt), 338(pt), 339(pt), 340(pt), 341(pt), 342(pt), 346(pt), 347(pt), 348(pt), 350 (pt), 351(pt) 352(pt), 353 (pt), 354(pt), 355 (pt) and 356 (pt) of Dadar Naigaon Division at Rafi Ahmed Kidwai Marg, Wadala, Mumbai.

Sr. No	COMPLIANCE	REPLY
		dated 18.07.2023.
5	PP to obtain certified compliance report of earlier EC from Regional Office, MOEF&CC, Nagpur.	PP shall comply the same.
6	PP to provide 2-row plantation along the railway track & also provide sound proof windows to minimise noise pollution.	PP have proposed 2-row plantations along the railway track. PP also agreed to provide sound proof glass to the windows, flats facing the railway track.
7	PP to provide adequate 2-wheeler parking and ensure that 25% of 2-wheeler and 4- wheeler parking is equipped with electric charging facility; PP to submit parking statement for Rehab & MCGM buildings separately.	PP shall agree to comply with the condition.
8	PP to submit revised energy calculation with terrace floor plan considering shadow analysis report with nos. of Solar PV panels & Solar Water heaters & ensure that the energy savings from renewable sources shall be minimum 5 %.	PP proposed to achieve 5.58 % in sale and 6.14% in rehab energy saving through solar PV panels and solar water heaters.
9	PP to reduce discharge of treated water up to 35%. PP to submit undertaking from concerned authority/agency/third party regarding use of excess treated water.	PP proposes to utilize the excess treated water for the municipal gardens and other construction sites nearby to reduce the discharge upto 35%. Undertaking for the same is attached.
B) SEIAA CONDITIONS		
1	PP has provided mandatory RG area of 3044.25 m2 on mother earth without any construction. Local planning authority to ensure the compliance of the same.	Condition is noted.
2	EC is restricted up to 135.15 m height for Sale Tower no 1 as per CFO NOC.	PP have obtained HRC NOC for Tower no. 1 upto 143.95 mt. Refer Annexure 2A.
3	EC is also restricted for sale Tower no 2 up to 143.50 mas per HRC.	Condition is noted.
4	PP to keep open space unpaved so as to ensure permeability of water. However, whenever paving is deemed necessary, PP to provide grass pavers of suitable types & strength to increase the	Condition is noted.

SIX MONTHLY COMPLIANCE REPORT

Proposed redevelopment of Municipal Tenanted Property on Plot bearing Cadastral Survey Nos. 437 (pt), 335(pt), 338(pt), 339(pt), 340(pt), 341(pt), 342(pt), 346(pt), 347(pt), 348(pt), 350 (pt), 351(pt) 352(pt), 353 (pt), 354(pt), 355 (pt) and 356 (pt) of Dadar Naigaon Division at Rafi Ahmed Kidwai Marg, Wadala, Mumbai.

Sr. No	COMPLIANCE	REPLY
	water permeable area as well as to allow effective fire tender movement.	
5	PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF & CC vide F.No.22-34/2018-IA.III dt.04.01.2019.	Condition is noted and PP shall comply the same.
7	SEIAA after deliberation decided to grant EC for- FSI- 1,18,430.46 m2, Non FSI- 1,57,828.38m2, total BUA- 2,76,258.84 m2. (Plan approval No- P-9221/2021/ (354 and other)/F/North /DADAR NAIGAON/337/5/Amend, dated 18.07.2023) (Restricted as per approval).	Condition is noted and PP shall comply the same.
GENRAL CONDITIONS		
a) Construction Phase		
1	The solid waste generated should be properly collected and segregated. Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.	Condition is noted and PP shall comply the same.
2	Disposal of muck, Construction spoils, including bituminous material during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in the approved sites with the approval of competent authority.	All construction waste will get collected and segregated properly. Most of that shall be reused for the construction activity.
3	Any hazardous waste generated during construction phase should be disposed of as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.	PP shall comply the same.
4	Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.	Adequate drinking water facility shall be provided for the workers at the site during construction phase.

SIX MONTHLY COMPLIANCE REPORT

Proposed redevelopment of Municipal Tenanted Property on Plot bearing Cadastral Survey Nos. 437 (pt), 335(pt), 338(pt), 339(pt), 340(pt), 341(pt), 342(pt), 346(pt), 347(pt), 348(pt), 350 (pt), 351(pt) 352(pt), 353 (pt), 354(pt), 355 (pt) and 356 (pt) of Dadar Naigaon Division at Rafi Ahmed Kidwai Marg, Wadala, Mumbai.

Sr. No	COMPLIANCE	REPLY
5	Arrangement shall be made that waste water and storm water do not get mixed.	During Operational phase, Covered sewage system has been proposed which is connected to STP for the treatment and reuse of the treated water. Excess treated water shall be disposed of into the sewer drain.
6	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices.	Ready mix cement, curing agents and other best practices will be carry out to minimize the water demand.
7	The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.	There is no extraction of ground water.
8	Permission to draw ground water for construction of basement if any shall be obtained from the Competent Authority prior to construction/operation of the project.	Use of only Tanker water for construction practice.
9	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor-based control.	Adequate measures will be taken into consideration to minimize the wastage of water.
10	The Energy Conservation Building code shall be strictly adhered to.	Condition is noted and PP shall comply the same.
11	All the topsoil excavated during construction activities should be stored for use in horticulture I landscape development within the project site.	Excavated top soil shall be used for landscaping.
12	Additional soil for levelling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.	Condition is noted.
13	Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.	Soil testing was done, according to the reports all the parameters are within limit and so there is no threat to groundwater quality by leaching of heavy metals and other toxic contaminants.
14	PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.	Condition is noted.

SIX MONTHLY COMPLIANCE REPORT

Proposed redevelopment of Municipal Tenanted Property on Plot bearing Cadastral Survey Nos. 437 (pt), 335(pt), 338(pt), 339(pt), 340(pt), 341(pt), 342(pt), 346(pt), 347(pt), 348(pt), 350 (pt), 351(pt) 352(pt), 353 (pt), 354(pt), 355 (pt) and 356 (pt) of Dadar Naigaon Division at Rafi Ahmed Kidwai Marg, Wadala, Mumbai.

Sr. No	COMPLIANCE	REPLY
15	The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.	DG of 150 KVA capacity shall be used as backup during construction phase. These are environment friendly make and provided with acoustic enclosure to avoid noise emission.
16	Vehicles hired for transportation of Raw material shall strictly comply the emission norms prescribed by Ministry of Road Transport & Highways Department. The vehicle shall be adequately covered to avoid spillage/leakages.	Condition is noted and we shall comply the same.
17	Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.	<p>Following care will be taken regarding noise levels with conformation to the residential area.</p> <ul style="list-style-type: none"> • Use of well-maintained equipment fitted with silencers. • Noise shields near the heavy construction operations are provided. • Construction activities are limited to daytime hours only. <p>Also, use of Personal Protective Equipment (PPE) like ear muffs and ear plug during construction activities.</p>
18	Diesel power generating sets proposed as source of backup power for elevators and common area illumination during construction phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel is preferred. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.	<ul style="list-style-type: none"> • D.G. sets will be provided as back up for Residential buildings. • 150 KVA D.G. set will be provided with silencer & acoustic enclosures. The stacks shall be provided as per MPCB norms.
19	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid	Regular supervision done by our site engineer to take care of the construction activity and of the surroundings.

SIX MONTHLY COMPLIANCE REPORT

Proposed redevelopment of Municipal Tenanted Property on Plot bearing Cadastral Survey Nos. 437 (pt), 335(pt), 338(pt), 339(pt), 340(pt), 341(pt), 342(pt), 346(pt), 347(pt), 348(pt), 350 (pt), 351(pt) 352(pt), 353 (pt), 354(pt), 355 (pt) and 356 (pt) of Dadar Naigaon Division at Rafi Ahmed Kidwai Marg, Wadala, Mumbai.

Sr. No	COMPLIANCE	REPLY
	disturbance to the surroundings by a separate environment cell /designated person.	
B) Operational Phase		
1	a) The solid waste generated should be properly collected and segregated. b) Wet waste should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. c) Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.	Garbage will be collected manually from each of the building and carted to collection spot through trolleys. In order to avoid problems associated with solid waste disposal problems, an effective solid waste management system will be followed by segregating the wet and dry garbage. Wet waste will be treated by Organic Waste Converter.
2	E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.	E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2011
3	a) The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Treated effluent emanating from STP shall be recycled/ reused to the maximum extent possible. Treatment of 100% grey water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP. b) PP to give 100 % treatment to sewage /Liquid waste and explore the possibility to recycle at least 50 % of water, Local authority should ensure this.	STP of capacity of 305 cum, 481 cum, 405 cum shall be provided to treat the waste water. STP will be provided by established consultant and the operation and maintenance shall be done by the technical persons of consultant. MOU will be done for the maintenance. Refer Annexure 5 .
4	Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will be given unless all above said environmental infrastructure is	STP shall be provided for Recycling of wastewater. Proper disposal of waste will be done through well managed Solid Waste management team.

SIX MONTHLY COMPLIANCE REPORT

Proposed redevelopment of Municipal Tenanted Property on Plot bearing Cadastral Survey Nos. 437 (pt), 335(pt), 338(pt), 339(pt), 340(pt), 341(pt), 342(pt), 346(pt), 347(pt), 348(pt), 350 (pt), 351(pt) 352(pt), 353 (pt), 354(pt), 355 (pt) and 356 (pt) of Dadar Naigaon Division at Rafi Ahmed Kidwai Marg, Wadala, Mumbai.

	installed and made functional including water requirement.	
5	The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.	We shall agree to comply with the condition.
6	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.	This effect would be prominent during construction as well as operation phase. The probability of inconvenience faced due to the frequency of truck movement during construction phase would be minimized by better control of traffic movement in the area. Noise levels expected from the planned operating conditions have been assessed and are likely to be within acceptable levels. The impacts have been mitigated by the suggested measures in the "air control and management section". Anti-honking sign boards are placed in the parking areas and on entry and exit point. The project will be provided with sufficient road facilities within the project premises and there will be a large area provided for the parking of vehicles.
7	PP to provide adequate electric charging points for electric vehicles (EVs).	We shall propose 25% of charging points for Electric vehicles on total parking in the project.
8	Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.	The green area will be approx. 6258.13 sq.mt A combination of native evergreen trees and ornamental flowering trees, shrubs and palms are planned in the complex. Total 607 No's of trees will be planted after development. Refer Annexure 06.

9	A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.	Separate environment management cell/ consultant with qualified staff is formed and implementing the same.
10	Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. This cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes.	EMP cost has been worked out and allocated for all environmental pollution control devices and other facilities. Refer Annexure 07 .
11	The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at parivesh.nic.in	The advertisement was published in Marathi and English language local newspaper. In Marathi newspaper "Navshakti" dtd. 07.11.2023 & in English newspaper "The Free Press Journal" dtd. 07.11.2023. Refer Annexure 08 .
12	A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.	We shall comply the same.
13	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM. SO ₂ , NO _x (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.	Condition is noted.

C) General EC Conditions		
1	PP has to strictly abide by the conditions stipulated by SEAC& SEIAA.	Condition is noted and we shall comply the same.
2	If applicable Consent for Establishment" shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.	We have obtained Consent to Establish from MPCB. Refer Annexure 09 .
3	Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.	Environmental Clearance is already obtained. Refer Annexure 10 .
4	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.	Condition is noted and submitted to regional office of MoEF. We are submitting herewith six-monthly reports to environment department, Mantralay & MPCB.
5	The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.	Condition is noted and we shall comply the same.
6	No further Expansion or modifications, other than mentioned in the EIA Notification, 2006 and its amendments, shall be carried out without prior approval of the SEIAA. In case of deviations or alterations in the project proposal from those submitted to SEIAA for clearance, a fresh reference shall be made to the SEIAA as applicable to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.	Condition is noted.

Dear Applicant/ Owner/ Developer,

There is no objection to your carrying out the work as per amended plans submitted by you online under reference for which competent authority has accorded sanction, subject to the following conditions.

- 1) That the work shall be carried out strictly as per approved plan.
- 2) That all condition and direction specified in the order of Hon'ble Supreme Court dated 15.3.2018 in dumping ground case shall be complied with
- 3) That adequate safeguards shall be employed in consultation with SWM Dept. of MCGM for preventing dispersal of particles through air and the construction debris generated shall be deposited in specific sites inspected and approved by MCGM.
- 4) That the debris shall be managed in accordance with the provisions of construction and demolition waste Management Rules 2016.
- 5) That the all requisite fees, premiums, development charges deposits shall be paid before endorsement of C.C. That the C.C shall be endorsed as per approved amended plan.
- 6) That the specific NOC as per Hon'ble Supreme Court of India (S.L.P. Civil No. D23708/2017) Order in Dumping Ground Court Case dated 15/03/2018 shall be obtained from concerned department/ S.W.M. Department & in accordance with as per circular u/no. che/dp/2373/gen. dt. 25.04.2018 & Bank Guarantee shall be submitted.
- 7) That the revised structural design / calculations / details / drawings shall be submitted before extending C.C.
- 8) That all the conditions of I.O.D. under even No. dated 31-01-2022 and amended plan approved letter dated 4-07-2022 and 3-03-2023 shall be complied with.
- 9) That the C.C. shall be got endorsed as per the amended plan.
- 10) That the revised parking remarks shall be submitted before asking CC

Ref : Your letter received on 25.07.2022.

Gentleman,

With reference to your above referred representation regarding subject matter, by direction, I have to inform you that the High Rise Committee, constituted under Regulation 19(2A) of Development Control & Promotion Regulation 2034 has recommended your proposal comprising of High Rise Residential Building MCGM Tower comprising basement for Services + part stilt for parking and part for substation, entrance lobby and meter room + 1st to 48th upper floor for residential user having total height of **148.05 mtr** from the general ground level to the terrace level, as per the High Rise Committee meeting held on 30.09.2022, subject to the terms & conditions as mentioned below:-

MANDATORY CONDITIONS:

1. Access roads to the site and roads on the site that will be required as per plan permanently should be minimum water bound macadam road and constructed before construction activities commence. This will help in reducing local dust emissions to a great extent. The road can be converted to a black top road once the construction activities are completed.
2. As the site is located in a developed urban area, it is essential to enclose the site using barriers, to reduce the noise and dust impacts on surrounding buildings and sites.

3. Jack hammers and other construction equipments tend to generate a lot of noise, it is therefore essential that noise protective equipments like ear muffs & ear plugs be provided to the operator of the machine. To reduce the noise from the equipment, silencer/ dampers should be attached to the equipment.
4. All Stationary machinery that create noise should be installed at points away from sensitive receptor area.
5. Noise prone activities should be restricted to the extent possible during night time, particularly during the period 6p.m. to 6.a.m.
6. During excavation and transportation over un-metalled roads near the project site, there is a scope for local dust emissions. Frequent water sprinkling in the vicinity of the construction activity should be done and it should be continued even after the completion of the excavation till construction is complete.
7. Excavation should be carried out in such a manner that it will not reduce slope stability. As much of the top soil and waste materials as possible should be used for landscaping and leveling activities in the surrounding area. As far as possible store the excavated soil (the amount that would be required later for leveling and landscaping) on site, so that the soil can be reused during landscaping.
8. A basic surface drainage system for the site should be worked out to avoid water runoff on to the surrounding properties and roads, especially during the monsoon months.
9. If during excavation, water accumulates in the excavated areas, then it should be pumped out and disposed off either in the municipal storm water drain or into recharge soak pits of bore wells.
10. Load and unload trucks with construction material on site and not on surrounding roadside.
11. The responsibility to carryout the work as per submissions made to the Committee solely rests with the project proponents.
12. If the project attracts the provisions of the MOEF Notification under SO No.114(E) dt.19.2.1991 and recent Notification dt.6.1.2011 and Notification dtd.07-07-2004 & revised EIA Notification dtd.14.9.2006, the clearance in this respect shall be obtained and all the conditions mentioned therein shall be complied with.
13. The approval is granted for High Rise Residential Building MCGM Tower comprising basement for Services + part stilt for parking and part for substation, entrance lobby and meter room + 1st to 48th upper floor for residential user having total height of **148.05 mtr** from the general ground level to the terrace level.
14. The conditions as stated in the NOC issued by CFO on 13.12.2021 and all earlier CFO NOCs shall be complied with. If the plans cleared by Committee,

- differ from the plans of CFO NOC, revised CFO NOC shall be submitted to the concerned Dy.Ch.E (BP).
15. That the NOC from Civil Aviation Authority for the height of the building under reference shall be obtained, if applicable, and all the conditions thereof shall be complied with.
 16. The acceptance of proposal by High Rise Committee is not indicative of admissibility/approval of the proposal as per D.C.P.R. 2034, other statutory compliances & the necessary proposal shall be submitted to concerned Executive Engineer (BP) for requisite approval. The aspect such as permissible FSI, applicable D.C.P.R & policies in force shall be verified by the concerned Executive Engineer (BP) before approval of plans.
 17. The Technical Committee for High Rise Buildings, however, reserves right to alter/ modify/ augment fire safety related provisions as well as disaster management related provisions, on the basis of decision to be taken in the upcoming meetings.
 18. That the permission is granted based on the documents submitted by the Architect and if at any time are found fake/ fraudulent, then the permission issued shall be treated as revoked/ cancelled without further notice.
 19. This permission is issued by HRC committee on plans / designs submitted to HRC. If any changes are made in the proposal without obtaining revised clearance from HRC, earlier clearance given by the HRC shall be treated as revoked/ invalid.
 20. Design / Report / Calculations submitted to HRC on the basis of which proposal has been cleared by the committee shall be adhered to. Undertaking to that extent from the Architect / LS / Structural Engineer shall be insisted by concerned E.E.(BP).
 21. The Project Proponent shall measure the periodic settlement (floorwise) for the remaining height till the full Dead Load is applied & submit results to HRC.
 22. The necessary other permissions from various other Departments/ Committees/ Authorities shall be obtained as per requirements.
 23. Copy of report submitted to Hon. M.C.'s approval & approval obtained u/no. MCP/8085 dtd. 27.07.2023 is enclosed herewith. E.E.(BP) to ensure the compliance of conditions, if any mentioned in the said report.

Recommendatory Condition

1. At the time of site clearance, care must be taken to minimize the need for cutting of trees and damage to the native vegetation.
2. Clearing of site area may involve removal/ transplantation of trees, underbrush, vines, fences, shades etc. All the unwanted vegetation then becomes solid waste that needs to be disposed off site. As this is organic matter, instead of disposing it offsite, the mater should be composed on site.

3. Phase out the site clearing process to only areas that need excavation initially this will reduce the dust emission from currently unused areas. If site has been cleared, vegetate the area by growing temporary groundcover plants or flower beds in the area. Alternatively cover the ground with a sheet, this sheet can be made out of empty cement bags, and the area then used to store materials, this will help reduce the dust emissions from these areas and provide a clean surface to store material on.
4. Environment Clearance as per the norms of MOEF shall be obtained, if applicable.
5. To reduce dust emissions and erosions from slopes on the site, apply non toxic chemical soil stabilizers (Geotextiles) to the area.
6. The short term traffic management plan should be worked out to prevent unnecessary traffic problems. One measure to be incorporated is to avoid trucks during the morning and evening rush hours i.e. before 10.00 a.m. and after 5.00 p.m.
7. In cases where the construction of paved access or Water bound macadam road is not possible, frequent water sprinkling required to reduce local dust emissions.
8. Traffic speeds on unpaved roads should be reduced to 15 Km.ph. or less, and all the vehicles should have reverse horns.
9. On windy days avoid excavation activities to reduce dust emissions.
10. Prevent the excavated soil from spilling out of the site boundaries onto adjoining roads and properties.
11. Prevent other garbage waste such as construction debris, plastic material from mixing with the excavated soil that is being transported out of the site for dumping off site. This soil will be used for land filling and mixing of garbage with it can lead to soil contamination.
12. Water the site at least twice a day to reduce the dust emissions. Once during mid morning and once in the evening.
13. Soil stockpiled for more than two days shall be covered, kept moist or treated with soil binders to prevent dust generation. (A good cover sheet can be formed by stitching empty cement bags silt open to form a sheet).
14. Since, there is likelihood of fugitive dust form the construction activity, material handling and from the truck movement in the vicinity of the project site, project proponents should go for tree plantation programme along the approach roads and the construction campus.
15. Re-vegetate disturbed areas as early as possible.
16. As soon as construction is over, the surplus earth should be utilized to fill up low lying areas. The rubbish should be cleared and all un built surfaces reinstated.

17. Construct appropriate temporary housing structures for the labourers on the site with due approval from the competent authority. Houses should be provided with proper light and ventilation, and should be located at a safe location on the site.
18. Provisions should be made for providing potable, drinking water to construction workers.
19. The construction site should be provided with sufficient and suitable toilet facilities for workers to allow proper standards of hygiene. These facilities would be connected to septic tank / existing sewer line with sanction of competent authority and maintained properly to ensure minimum environmental affect. Care should be taken not to route the sanitary effluents to the river or any other natural water body.
20. To prevent unauthorized falling of trees in the nearby undeveloped areas by construction workers for their fuel needs, it should be ensured that the contractor provides fuel to the construction workers.
21. Arrangements should be made for daycare and education to construction workers children. Certain NGO's working in this area can be associated with or alternatively one female worker can be paid to oversee the younger children and to prevent them from coming in harm's way.
22. Solid waste generated from the labour camp as well as the construction site should be disposed off properly. Organic waste can be composted, and inorganic waste should be disposed in nearest municipal bins.
23. To sweep and clean adjacent roads of the site that get soiled due to the frequent movement of trucks to and fro from the site, at least once a day.
24. All outdoor lighting, including any construction related lighting should be designed, installed and operated in a manner that ensures that all direct rays from project lighting are contained within construction site and that residences are protected from spillover light and glare.
25. Parking for construction site workers should be provided on site to prevent clogging of surrounding roads.
26. Tea stalls if established for the site should be given space on site and not on access roads. This will prevent the gathering of labourers on the roads and obstruction of traffic.
27. Rotary piling method can be adopted for construction of bored cast in situ/ bored pre-cast piles. Preferably, M.S. liner can be provided upto hard stratum.
28. Preferable minimum grade concrete in sub structure foundation can be M-40 grade and use of anti corrosive treatment can be considered for M.S. reinforcements.

29. Ground Water in Mumbai is likely to be saline and further there is a possibility of sewage contamination in well water, as such, municipal water be used for construction, with approval of competent authority, if permitted.
30. Withdrawal of ground water should be restricted as it may cause sudden draw-down and subsidence of surrounding land/buildings.
31. The electric meters and substation in the buildings be located on higher level to prevent power failure during floods.
32. While approving the proposal for building above 120 mt. the minimum width of access road shall be as per Regulation 19(2) of DCPR 2034.

If your client is agreeable to the aforesaid terms and conditions, you may approach the Executive Engineer(BP)City-II, who is being informed separately regarding subject matter.

Acc:- A Set of Plan.

Yours faithfully,

(D. S. Naik)

**Dy. Chief Engineer
(Development Plan)-II**

common Basement for services + Ground to 44th upper floors with total height of **143.95 mtr** from the general ground level to the terrace level.

The proposal is discussed in the meeting and following observations & suggestions were made by the Committee:-

1. Competent authority has already approved high rise buildings with piped access of present 6 meters width. ✓
2. The foundation load test 120 Ton per sqm. ✓
3. Project proponent should clarify about the Building is proposed 30m beyond Railway boundaries. ✓
4. Loading test to be taken on all soil model. ✓
5. Shoring line should minimum 3.00 mtr from boundary. ✓
6. Details regarding water body within the layout should be included in the report. ✓
7. Floating columns in lobby and Change in shape of columns is observed. ✓
8. IS - 16700 Code exceeding building report should submitted. ✓
9. CFO NOC is obtained u/no. P-9221/2021/(354 and other)/ F/North/Dadar-Naigaon-CFO/1/New dtd. 18.06.2022

The proposal is cleared from Architectural, Fire & Safety, Geotechnical & Structural points of view, subject to compliance regarding point no. 3 to 8 above. ✓

The Architectural plan shall be signed by Committee.

As such, Technical Committee constituted by Hon'ble Municipal Commissioner under Regulation 19(2A) of Development Control & Promotion Regulation 2034 has recommended the proposal for clearance from High Rise Building point of view.

HRB Proposal No. 967: Proposed High Rise Residential cum Commercial building for Rehab component (Tower 1 & Tower 2) on plot bearing C.S. No. 437(pt), 335(pt), 338(pt), 339(pt), 340(pt), 341(pt), 342(pt), 346(pt), 347(pt), 348(pt), 350(pt), 351(pt), 352(pt), 353(pt), 354(pt), & 356(pt) of Dadar Naigaon Division, Rafi Ahmed Kidwai Marg, Azad Nagar, Wadala, F/N ward, known as shree Azad Nagar CHS Ltd & Om Azad Nagar CHS Ltd.

M/s. Ellora Project Consultants have submitted a proposal which envisages construction of High Rise Residential cum Commercial rehab Buildings having **Shree Azad Nagar Tower-1 and Shree Azad Nagar Tower-2** comprising of part stilt for commercial units part for entrance lobby, meter room, pump room and Society office + 1st to 42nd (pt) upper floors for residential users with total height of **129.25 mtr** from the general ground level to the terrace level.

The proposal is discussed in the meeting and following observations & suggestions were made by the Committee:-

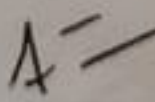

1. Competent authority has already approved high rise buildings with piped access of present 6 meters width. ✓
2. Diesel pump is provided, hence smoke detection to be connected to fire alarms system. ✓
3. Structure is flexible in Y-direction which should have been in shorter direction. ✓
4. Structural drawings by converting normal wall in RCC wall shall be submitted. ✓
5. Building to be made stiff in Longer (X) direction and time period should be reduced to 4 - 5 sec. ✓
6. Temperature analysis to be done as there is no expansion joint after 45 mtr. ✓
7. Non Ortho wind analysis to be checked. ✓
8. IS - 16700 Code exceeding building checklist to be submitted. ✓
9. The lateral stiffness of the building in the longer direction shall be increased to reduce the fundamental time period. ✓
10. Being a long building without expansion joint, it is suggested to carry out the temperature analysis. ✓
11. The revised structural analysis and design including ETABS and SAFE models shall be submitted for further evaluation. ✓
12. CFO NOC is obtained u/no. P-9214/2021/ (335 and other)/F/North/Dadar-Naigaon-CFO/1/New dtd. 13.12.2021 ✓

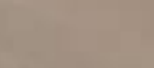

The proposal is cleared from Architectural, Fire & Safety, Geotechnical & Structural points of view, subject to compliance regarding point no. 2 to 11 above.

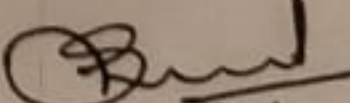

The Architectural plan shall be signed by Committee.

3. Structural Engineer stated that building is designed with 4 additional floors with height of 150. mt.
4. IS1892 to comply i.e. 10% pressure bulb depth.
5. Dead Load + Wind Load, Dead Load + Seismic Load analysis required in PLAXIS3D.
6. E Value as Emax chosen needs to justify.
7. Weathered rock V/s. moderately weathered rock show opposite shear strength parameters, seem to be inconsistent and hence needs to be checked.
8. Interference of nearby foundations on these towers needs to be checked and reported.
9. 150 sq.mt SBC justification, cohesion & friction angle through tests need to be checked with assumed correlations and then appropriately to choose.
10. Function of ground water level on foundation design needs to be checked & reported.
11. Building is not orthogonal & cross wind effect to be considered.
12. The floor over 43rd floor is refuge area.
13. CFO NOC is obtained u/no. CHE/ES/1321/T/337(NEW)-CFO dtd.19.06.2022.

The compliance of above points shall be submitted to HRC and the proposal will discussed further in the subsequent meeting.

HRB Proposal No.965: High Rise Residential Building of Sale Component (Tower 3 & 4) on plot bearing C.T.S.Nos.437(pt.), 335(pt.), 338(pt.), 339(pt.), 340(pt.), 341(pt.), 342(pt.), 346(pt.), 347(pt.), 348(pt.), 350(pt.), 351(pt.), 352(pt.), 353(pt.), 354(pt.) & 356(pt.) of Dadar Naigaon Division, Rafi Ahmed Kidwai marg, Azad Nagar, Wadala, F/north, Mumbai, known as Shree Azad Nagar CHS Ltd & Om Azad Nagar CHS Ltd.

Developers:	M/s.Godrej Projects Development Ltd.
Architect:	M/s.Ellora Project Consultants

Geotech.Con.:	M/s.Global Geotechnics.
MEP Con.:	M/s.Buro Happold Engineers India Pvt. Ltd.

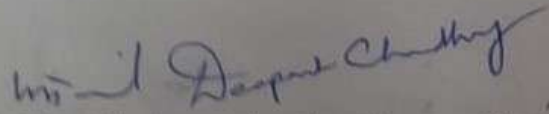

The proposal envisages construction of High Rise Residential Sale Building having Tower 3 & Tower 4 comprising of Basement for services + Ground to 44th upper floors for

				
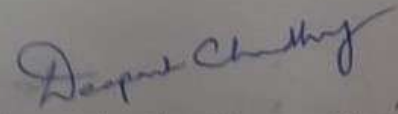

R.S.Jangid Member	Deepankar Choudhury Member	Shashank Mehendale Member	Sanjay Manjarekar C.F.O.	S. V. Bhat Dy.Ch.E.(D.P.) Member Secretary

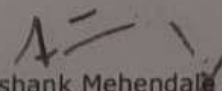

residential user with total height of **143.95 mt.** from the general ground level to the terrace level.,

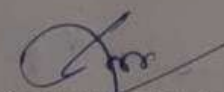

The proposal is discussed in the meeting and following observations & suggestions were made by the Committee:-

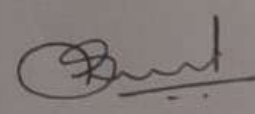

1. The property under reference does not front any public road, but has access from 6.00 mt. wide piped access (Part of the plot). Necessary concession to allow High Rise Building with the above are already sanctioned by Municipal Commissioner.
2. The wind tunnel is carried out for Tower Nos.3 & 4 as well as for all the towers together and maximum loading has been considered in design.
3. The lateral stiffness of the building for one tower shall be increased to separate the 1st and 2nd fundamental load.
4. Dead Load + Live Load $P_{min} = 0$ safe how? Any uplift? Needs to be checked.
5. PLAXIS3D analysis with Dead Load + Live Load, Dead Load + Wind Load, Dead Load + Seismic Load are required. ✓
6. SE is not determined here. Need to be obtained. ✓
7. Delta non zero with $P_{min} = 0$? How? ✓
8. 4 Nos of floating columns forces details of girder where floating columns, deflection in X & Y direction to make stiff ✓
9. Plate load test for e value, define e value. ✓
10. Comply to all relevant IS Codes for foundation design, settlement soil/geotechnical testing for this project. ✓
11. Emax or Esec needs to be checked and comply through field test. ✓
12. IS1892 to comply i.e. 10% pressure bulb depth. ✓
13. E Value as Emax chosen needs to be justified. ✓
14. Weathered rock V/s. moderately weathered rock show opposite shear strength parameters. Hence, needs to be checked. ✓
15. Interference of nearby foundations on these towers needs to be checked and reported. ✓
16. Function of ground water level on foundation design needs to be checked & reported. ✓
17. CFO NOC is obtained u/no. P-9221/2021/(354 and other)/F/North/Dadar-Nalgaon-CFO/1/New dtd. 18.06.2022.

Ref : Your letter received on 26.07.2022.

Gentleman,

With reference to your above referred representation regarding subject matter, by direction, I have to inform you that the High Rise Committee, constituted under Regulation 19(2A) of Development Control & Promotion Regulation 2034 has recommended your proposal comprising of High Rise Residential Building having **Tower 1 : wing A & B** comprising of common Basement for services + Ground to 44th upper floors with total height of **143.95 mtr** from the general ground level to the terrace level, as per the High Rise Committee meeting held on 30.09.2022, subject to the terms & conditions as mentioned below:-

MANDATORY CONDITIONS:

1. Access roads to the site and roads on the site that will be required as per plan permanently should be minimum water bound macadam road and constructed before construction activities commence. This will help in reducing local dust emissions to a great extent. The road can be converted to a black top road once the construction activities are completed.
2. As the site is located in a developed urban area, it is essential to enclose the site using barriers, to reduce the noise and dust impacts on surrounding buildings and sites.
3. Jack hammers and other construction equipments tend to generate a lot of noise, it is therefore essential that noise protective equipments like ear muffs

- & ear plugs be provided to the operator of the machine. To reduce the noise from the equipment, silencer/ dampers should be attached to the equipment.
4. All Stationary machinery that create noise should be installed at points away from sensitive receptor area.
 5. Noise prone activities should be restricted to the extent possible during night time, particularly during the period 6p.m. to 6.a.m.
 6. During excavation and transportation over un-metalled roads near the project site, there is a scope for local dust emissions. Frequent water sprinkling in the vicinity of the construction activity should be done and it should be continued even after the completion of the excavation till construction is complete.
 7. Excavation should be carried out in such a manner that it will not reduce slope stability. As much of the top soil and waste materials as possible should be used for landscaping and leveling activities in the surrounding area. As far as possible store the excavated soil (the amount that would be required later for leveling and landscaping) on site, so that the soil can be reused during landscaping.
 8. A basic surface drainage system for the site should be worked out to avoid water runoff on to the surrounding properties and roads, especially during the monsoon months.
 9. If during excavation, water accumulates in the excavated areas, then it should be pumped out and disposed off either in the municipal storm water drain or into recharge soak pits of bore wells.
 10. Load and unload trucks with construction material on site and not on surrounding roadside.
 11. The responsibility to carryout the work as per submissions made to the Committee solely rests with the project proponents.
 12. If the project attracts the provisions of the MOEF Notification under SO No.114(E) dt.19.2.1991 and recent Notification dt.6.1.2011 and Notification dtd.07-07-2004 & revised EIA Notification dtd.14.9.2006, the clearance in this respect shall be obtained and all the conditions mentioned therein shall be complied with.
 13. The approval is granted for High Rise Residential Building having **Tower 1 : wing A & B** comprising of common Basement for services + Ground to 44th upper floors with total height of **143.95 mtr** from the general ground level to the terrace level.
 14. The conditions as stated in the NOC issued by CFO on 18.06.2022 and all earlier CFO NOCs shall be complied with. If the plans cleared by Committee, differ from the plans of CFO NOC, revised CFO NOC shall be submitted to the concerned Dy.Ch.E (BP).

15. That the NOC from Civil Aviation Authority for the height of the building under reference shall be obtained, if applicable, and all the conditions thereof shall be complied with.
16. The acceptance of proposal by High Rise Committee is not indicative of admissibility/approval of the proposal as per D.C.P.R. 2034, other statutory compliances & the necessary proposal shall be submitted to concerned Executive Engineer (BP) for requisite approval. The aspect such as permissible FSI, applicable D.C.P.R & policies in force shall be verified by the concerned Executive Engineer (BP) before approval of plans.
17. The Technical Committee for High Rise Buildings, however, reserves right to alter/ modify/ augment fire safety related provisions as well as disaster management related provisions, on the basis of decision to be taken in the upcoming meetings.
18. That the permission is granted based on the documents submitted by the Architect and if at any time are found fake/ fraudulent, then the permission issued shall be treated as revoked/ cancelled without further notice.
19. This permission is issued by HRC committee on plans / designs submitted to HRC. If any changes are made in the proposal without obtaining revised clearance from HRC, earlier clearance given by the HRC shall be treated as revoked/ invalid.
20. Design / Report / Calculations submitted to HRC on the basis of which proposal has been cleared by the committee shall be adhered to. Undertaking to that extent from the Architect / LS / Structural Engineer shall be insisted by concerned E.E.(BP).
21. The Project Proponent shall measure the periodic settlement (floorwise) for the remaining height till the full Dead Load is applied & submit results to HRC.
22. The necessary other permissions from various other Departments/ Committees/ Authorities shall be obtained as per requirements.
23. Copy of report submitted to Hon. M.C.'s approval & approval obtained u/no. MCP/7981 dtd. 27.07.2023 is enclosed herewith. E.E.(BP) to ensure the compliance of conditions, if any mentioned in the said report.

Recommendatory Condition

1. At the time of site clearance, care must be taken to minimize the need for cutting of trees and damage to the native vegetation.
2. Clearing of site area may involve removal/ transplantation of trees, underbrush, vines, fences, shades etc. All the unwanted vegetation then becomes solid waste that needs to be disposed off site. As this is organic matter, instead of disposing it offsite, the mater should be composed on site.

3. Phase out the site clearing process to only areas that need excavation initially this will reduce the dust emission from currently unused areas. If site has been cleared, vegetate the area by growing temporary groundcover plants or flower beds in the area. Alternatively cover the ground with a sheet, this sheet can be made out of empty cement bags, and the area then used to store materials, this will help reduce the dust emissions from these areas and provide a clean surface to store material on.
4. Environment Clearance as per the norms of MOEF shall be obtained, if applicable.
5. To reduce dust emissions and erosions from slopes on the site, apply non toxic chemical soil stabilizers (Geotextiles) to the area.
6. The short term traffic management plan should be worked out to prevent unnecessary traffic problems. One measure to be incorporated is to avoid trucks during the morning and evening rush hours i.e. before 10.00 a.m. and after 5.00 p.m.
7. In cases where the construction of paved access or Water bound macadam road is not possible, frequent water sprinkling required to reduce local dust emissions.
8. Traffic speeds on unpaved roads should be reduced to 15 Km.ph. or less, and all the vehicles should have reverse horns.
9. On windy days avoid excavation activities to reduce dust emissions.
10. Prevent the excavated soil from spilling out of the site boundaries onto adjoining roads and properties.
11. Prevent other garbage waste such as construction debris, plastic material from mixing with the excavated soil that is being transported out of the site for dumping off site. This soil will be used for land filling and mixing of garbage with it can lead to soil contamination.
12. Water the site at least twice a day to reduce the dust emissions. Once during mid morning and once in the evening.
13. Soil stockpiled for more than two days shall be covered, kept moist or treated with soil binders to prevent dust generation. (A good cover sheet can be formed by stitching empty cement bags silt open to form a sheet).
14. Since, there is likelihood of fugitive dust form the construction activity, material handling and from the truck movement in the vicinity of the project site, project proponents should go for tree plantation programme along the approach roads and the construction campus.
15. Re-vegetate disturbed areas as early as possible.

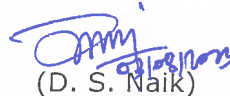

16. As soon as construction is over, the surplus earth should be utilized to fill up low lying areas. The rubbish should be cleared and all un built surfaces reinstated.
17. Construct appropriate temporary housing structures for the labourers on the site with due approval from the competent authority. Houses should be provided with proper light and ventilation, and should be located at a safe location on the site.
18. Provisions should be made for providing potable, drinking water to construction workers.
19. The construction site should be provided with sufficient and suitable toilet facilities for workers to allow proper standards of hygiene. These facilities would be connected to septic tank / existing sewer line with sanction of competent authority and maintained properly to ensure minimum environmental affect. Care should be taken not to route the sanitary effluents to the river or any other natural water body.
20. To prevent unauthorized falling of trees in the nearby undeveloped areas by construction workers for their fuel needs, it should be ensured that the contractor provides fuel to the construction workers.
21. Arrangements should be made for daycare and education to construction workers children. Certain NGO's working in this area can be associated with or alternatively one female worker can be paid to oversee the younger children and to prevent them from coming in harm's way.
22. Solid waste generated from the labour camp as well as the construction site should be disposed off properly. Organic waste can be composted, and inorganic waste should be disposed in nearest municipal bins.
23. To sweep and clean adjacent roads of the site that get soiled due to the frequent movement of trucks to and fro from the site, at least once a day.
24. All outdoor lighting, including any construction related lighting should be designed, installed and operated in a manner that ensures that all direct rays from project lighting are contained within construction site and that residences are protected from spillover light and glare.
25. Parking for construction site workers should be provided on site to prevent clogging of surrounding roads.
26. Tea stalls if established for the site should be given space on site and not on access roads. This will prevent the gathering of labourers on the roads and obstruction of traffic.
27. Rotary piling method can be adopted for construction of bored cast in situ/ bored pre-cast piles. Preferably, M.S. liner can be provided upto hard stratum.

28. Preferable minimum grade concrete in sub structure foundation can be M-40 grade and use of anti corrosive treatment can be considered for M.S. reinforcements.
29. Ground Water in Mumbai is likely to be saline and further there is a possibility of sewage contamination in well water, as such, municipal water be used for construction, with approval of competent authority, if permitted.
30. Withdrawal of ground water should be restricted as it may cause sudden draw-down and subsidence of surrounding land/buildings.
31. The electric meters and substation in the buildings be located on higher level to prevent power failure during floods.
32. While approving the proposal for building above 120 mt. the minimum width of access road shall be as per Regulation 19(2) of DCPR 2034.

If your client is agreeable to the aforesaid terms and conditions, you may approach the Executive Engineer-II(SRA), who is being informed separately regarding subject matter.

Acc : A Set of Plan

Yours faithfully,

**Dy. Chief Engineer
(Development Plan)-II**

3) यह अनापत्ति प्रमाण पत्र निम्नलिखित नियम व शर्तों के अधीन है: -

3. This NOC is subject to the terms and conditions as given below:

क) आवेदक द्वारा उपलब्ध कराए गए स्थल की ऊँचाई तथा निर्देशांक को, प्रस्तावित संरचना हेतु अनुमन्य अधिकतम ऊँचाई जारी करने के लिए प्रयोग किया गया है। भारतीय विमान पत्तन प्राधिकरण, आवेदक द्वारा उपलब्ध कराये गए स्थल की ऊँचाई तथा निर्देशांक की यथार्थता का ना तो उत्तरदायित्व वहन करता है, और ना ही इनको प्रमाणीकृत करता है। यदि किसी भी स्तर पर यह पता चलता है कि वास्तविक विवरण, आवेदक द्वारा उपलब्ध कराए गए विवरण से भिन्न है, तो यह अनापत्ति प्रमाण पत्र अमान्य माना जाएगा तथा कानूनी कार्यवाही की जाएगी। सम्बंधित विमान क्षेत्र के प्रभारी अधिकारी द्वारा एयरक्राफ्ट नियम 1994 (भवन, वृक्षों आदि के कारण अवरोध का विध्वंस) के अधीन कार्यवाही की जायगी।

a. Permissible Top elevation has been issued on the basis of Site coordinates and Site Elevation submitted by Applicant. AAI neither owns the responsibility nor authenticates the correctness of the site coordinates & site elevation provided by the applicant. If at any stage it is established that the actual data is different, this NOC will stand null and void and action will be taken as per law. The officer in-charge of the concerned aerodrome may initiate action under the Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994",

ख) अनापत्ति प्रमाण पत्र के आवेदन में आवेदक द्वारा उपलब्ध कराए गए स्थल निर्देशांक को सड़क दृश्य मानचित्र और उपग्रह मानचित्र पर अंकित किया गया है जैसा कि अनुलग्नक में दिखाया गया है। आवेदक / मालिक यह सुनिश्चित करे कि अंकित किए गए निर्देशांक उसके स्थल से मेल खाते हैं। किसी भी विसंगति के मामले में, नामित अधिकारी को अनापत्ति प्रमाण पत्र रद्द करने के लिए अनुरोध किया जाएगा।

b. The Site coordinates as provided by the applicant in the NOC application has been plotted on the street view map and satellite map as shown in ANNEXURE. Applicant/Owner to ensure that the plotted coordinates corresponds to his/her site. In case of any discrepancy, Designated Officer shall be requested for cancellation of the NOC.

ग) एयरपोर्ट संचालक या उनके नामित प्रतिनिधि, अनापत्ति प्रमाण पत्र नियमों और शर्तों का अनुपालन सुनिश्चित करने के लिए स्थल (आवेदक या मालिक के साथ पूर्व समन्वय के साथ) का दौरा कर सकते हैं।

c. Airport Operator or his designated representative may visit the site (with prior coordination with applicant or owner) to ensure that NOC terms & conditions are complied with.

घ) संरचना की ऊँचाई (सुपर स्ट्रक्चर सहित) की गणना अनुमन्य अधिकतम ऊँचाई (ए एम एस एल) से स्थल की ऊँचाई को घटाकर की जायेगी। अर्थात्, संरचना की अधिकतम ऊँचाई = अनुमन्य अधिकतम ऊँचाई (-) स्थल की ऊँचाई।

d. The Structure height (including any superstructure) shall be calculated by subtracting the Site elevation in AMSL from the Permissible Top Elevation in AMSL i.e. Maximum Structure Height = Permissible Top Elevation minus (-) Site Elevation.

च) अनापत्ति प्रमाण पत्र जारी करना, भारतीय एयरक्राफ्ट एक्ट 1934, के सैक्शन 9-A तथा इसके अंतर्गत समय-समय पर जारी अधिसूचनाएं तथा एयरक्राफ्ट नियम (1994 भवन, वृक्षों आदि के कारण अवरोध का विध्वंस) के अधीन है।

e. The issue of the 'NOC' is further subject to the provisions of Section 9-A of the Indian Aircraft Act, 1934

SNCR/WEST/B/110221/633317

and any notifications issued there under from time to time including, "The Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994".

छ) कोई भी रेडियो/ टीवी एन्टीना, लाइटनिंग अरेस्टर, सीढ़िया, मुमटी, पानी की टंकी अथवा कोई अन्य वस्तु तथा किसी भी प्रकार के संलग्नक उपस्कर पैरा 2 में उल्लेखित अनुमन्य अधिकतम ऊँचाई से ऊपर नहीं जानी चाहिए।

f. No radio/TV Antenna, lightening arresters, staircase, Mumty, Overhead water tank or any other object and attachments of fixtures of any kind shall project above the Permissible Top Elevation as indicated in para 2.

ज) विमानक्षेत्र संदर्भ बिंदु के 8 KM के भीतर तेल, बिजली या किसी अन्य ईंधन का उपयोग जो उड़ान संचालन के लिए धुएं का खतरा पैदा नहीं करता है, ही मान्य है।

g. Use of oil, electric or any other fuel which does not create smoke hazard for flight operation is obligatory, within 8 KM of the Aerodrome Reference Point

झ) यह प्रमाणपत्र इसके जारी होने की तारीख से 8 साल की अवधि के लिए वैध है। एक बार रिवेलीडेशन की अनुमति दी जा सकती है, बशर्ते कि इस तरह का अनुरोध एनओसी की समाप्ति की तारीख से छह महीने के भीतर किया जाए और प्रारंभिक प्रमाणपत्र 8 साल की वैधता अवधि के भीतर प्राप्त किया जाए।

h. The certificate is valid for a period of 8 years from the date of its issue. One-time revalidation shall be allowed, provided that such request shall be made within six months from the date of expiry of the NOC and commencement certificate is obtained within initial validity period of 8 years.

ट) भवन के निर्माण के दौरान या उसके बाद किसी भी समय स्थल पर ऐसी कोई भी लाइट या लाइटों का संयोजन नहीं लगाया जाएगा जिसकी तीव्रता, आकृति या रंग के कारण वैमानिक ग्राउन्ड लाइटों के साथ भ्रम उत्पन्न हो। विमान के सुरक्षित प्रचालन को प्रभावित करने वाली कोई भी गतिविधि मान्य नहीं होगी।

i. No light or a combination of lights which by reason of its intensity, configuration or colour may cause confusion with the aeronautical ground lights of the Airport shall be installed at the site at any time, during or after the construction of the building. No activity shall be allowed which may affect the safe operations of flights.

ठ) आवेदक द्वारा विमानपत्तन पर या उसके आसपास विमान से उत्पन्न शोर, कंपन या विमान प्रचालन से हुई किसी भी क्षति के विरुद्ध कोई शिकायत/दावा नहीं किया जाएगा।

j. The applicant will not complain/claim compensation against aircraft noise, vibrations, damages etc. caused by aircraft operations at or in the vicinity of the airport.

ड) डे मार्किंग तथा सहायक विद्युत आपूर्ति सहित नाइट लाइटिंग (डीजीसीए भारत की वेबसाइट www.dgca.nic.in पर उपलब्ध) नागर विमानन आवश्यकताएं श्रृंखला 'बी' पार्ट I सेक्शन-4 के चैप्टर 6 तथा अनुलग्नक 6 में विनिर्दिष्ट दिशानिर्देशों के अनुसार उपलब्ध कराई जाएंगी।

k. Day markings & night lighting with secondary power supply shall be provided as per the guidelines specified in chapter 6 and appendix 6 of Civil Aviation Requirement Series 'B' Part I Section 4, available on DGCA India website: www.dgca.nic.in

ढ) भवन के नक्शे के अनुमोदन सहित अन्य सभी वैधानिक अनापत्ति, संबंधित प्राधिकरणों से लेना आवेदक की जिम्मेदारी होगी, क्योंकि इस ऊँचाई हेतु अनापत्ति प्रमाणपत्र लेने का उद्देश्य सुरक्षित एवं नियमित विमान प्रचालन सुनिश्चित करना है तथा इसे भूमि के स्वामित्व आदि सहित किसी अन्य उद्देश्य/ दावे के लिए दस्तावेज के रूप में प्रयोग नहीं किया जा सकता।

l. The applicant is responsible to obtain all other statutory clearances from the concerned authorities including the approval of building plans. This NOC for height clearances is only to ensure safe and regular aircraft

क्षेत्रीय मुख्यालय पश्चिमी क्षेत्र पोर्टा केबिंस, नई एयरपोर्ट कॉलोनी, हनुमान रोड के सामने, विलेपारले ईस्ट

मुंबई- 400099 दूरभाष संख्या : 91-22-28300606

operations and shall not be used as document for any other purpose/claim whatsoever, including ownership of land etc.

ण) इस अनापत्ति प्रमाणपत्र आईडी का मूल्यांकन Juhu, Navi Mumbai, Santa Cruz विमानक्षेत्रों के संबंध में किया गया है। यह अनापत्ति प्रमाणपत्र भारतीय विमान पत्तन प्राधिकरण के विमानक्षेत्रों और अन्य लाइसेंस प्राप्त सिविल विमानक्षेत्रों, जो जी. एस. आर. 751 (ई) जी. एस. आर. 770 (ई) द्वारा संशोधित के अनुसूची - III, अनुसूची - IV (भाग - I), अनुसूची - IV (भाग - 2; केवल RCS हवाई अड्डे) और अनुसूची - VII में सूचीबद्ध हैं, के लिए जारी किया गया है।

m. This NOC ID has been assessed with respect to the Juhu, Navi Mumbai, Santa Cruz Airports. NOC has been issued w.r.t. the AAI Aerodromes and other licensed Civil Aerodromes as listed in Schedule – III, Schedule – IV (Part-I), Schedule- IV (Part-2; RCS Airports Only) and Schedule-VII of GSR 751(E) amended by GSR770(E)

त) यदि स्थल रक्षा विभाग के विमान क्षेत्र के अधिकार क्षेत्र में आता है, जैसा कि जीएसआर 751 (ई) की अनुसूची-V में सूचीबद्ध है, तो आवेदक को रक्षा विभाग से अलग से अनापत्ति प्रमाणपत्र लेना होता है। जीएसआर 751 (ई) जी. एस. आर. 770 (ई) द्वारा संशोधित के नियम 13 के अनुसार, आवेदकों को उन स्थलों के लिये, जो जीएसआर 751 (ई) जी. एस. आर. 770 (ई) द्वारा संशोधित के अनुसूची - IV (भाग - 2; आरसीएस हवाई अड्डों के अलावा) के रूप में सूचीबद्ध बिना लाइसेंस वाले विमान क्षेत्र के अधिकार क्षेत्र में आता हैं, तो संबंधित राज्य सरकार से भी अनापत्ति प्रमाणपत्र लेने की आवश्यकता है।

n. Applicant needs to seek separate NOC from Defence, if the site lies within the jurisdiction of Defence Aerodromes as listed in Schedule – V of GSR 751 E amended by GSR770(E). As per rule 13 of GSR 751 E amended by GSR770(E), applicants also need to seek NOC from the concerned state government for sites which lies in the jurisdiction of unlicensed aerodromes as listed in Schedule-IV (Part-2; other than RCS airports) of GSR 751 E amended by GSR770(E)

थ) अनापत्ति प्रमाण पत्र (एनओसी) की किसी भी त्रुटि/व्याख्या की स्थिति में अंगरेजी अनुवाद ही मान्य होगा।

o. In case of any discrepancy/interpretation of NOC letter, English version shall be valid.

द) स्थल की ऊँचाई और/या संरचना की ऊँचाई के किसी भी विवाद में अनुमन्य अधिकतम ऊँचाई एएमएसएल में ही मान्य होगी।

p. In case of any dispute with respect to site elevation and/or AGL height, Permissible Top Elevation in AMSL shall prevail.

Date:- 14.3.2022

Sub : Permission for Cutting & Transplanting of trees in the proposed redevelopment on plot bearing C.S. no. 437, 335, 338, 339, 340, 341, 342, 346, 347, 348, 350, 351, 352, 353, 354, 356 of Dadar Naigaon Div, Rafi Ahamad Kidwai Marg, Azad Nagar, Wadala, Mumbai 400 031 in 'F/North' ward.

Sir/ Madam,

Please refer to your Architect **M/s. Ellora Project Consultants** letter no. Nil dt. 10.12.2021 for permission for removal of tree affected in proposed redevelopment on plot bearing C.S. no. 437, 335, 338, 339, 340, 341, 342, 346, 347, 348, 350, 351, 352, 353, 354, 356 of Dadar Naigaon Div, Rafi Ahamad Kidwai Marg, Azad Nagar, Wadala, Mumbai 400 031 in 'F/North' ward has been considered by the Tree Authority under Section 8(3) of The Maharashtra (Urban Areas) Protection & Preservation of Trees Act 1975, as modified up to January 2018.

Hence, You are hereby directed to plant **298** nos trees in lieu of **Cutting 149** (One hundred Forty Nine) trees (Tree Sr.no.- 01, 08, 09, 10, 11, 13, 16, 40, 41, 42, 44, 45, 46, 47, 48, 49, 51, 52, 53, 54, 55, 57, 58, 60, 62, 63, 64, 65, 67, 68, 69, 70, 71, 72, 73, 75, 76, 78, 79, 80, 81, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 137 (dead), 147, 156, 157, 161, 162, 163, 164, 166, 167, 168, 169, 170, 171, 172, 183, 184, 186, 188, 192, 193, 194, 195, 196, 197, 198, 200, 201, 202, 203, 204, 205, 206, 207, 258, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 275, 276, 291, 292, 293, 294, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 338, 339, 341, 342, 344, 346, 348, 354, 355) within lays from the execution of tree cutting, **Transplant 41** (Forty one) trees (Tree Sr.no.- 02, 03, 12, 14, 15, 17, 43, 50, 59, 61, 66, 74, 77, 82, 95, 96, 97, 108, 141, 144, 145, 146, 148, 160, 165, 173, 185, 187, 189, 199, 259, 260, 274, 277, 295, 340, 343, 345, 347, 349, 350) is sanctioned by the Tree Authority's vide its **Resolution no. 69 dt.07.03.2022**.

As per the provision under Section 8 (3) (a) of the said Act, you are hereby directed that no tree shall be cut/ transplant until fifteen days (15) after the permission is given by the Tree Authority. And also you are requested to inform the Jr. Tree officer of concern ward about the date and time of cutting & transplanting of trees as per permission, so that the representative of this office will remain present to ensure the work carried out properly Jr. Tree officer 'F/North' ward whose contact no is 8692030699.

The remaining **307** (Three hundred Seven) trees (Tree Sr. no. - 04, 05, 06, 07, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 56, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 138, 139, 140, 142, 143, 149, 150, 151, 151 A, 152, 153, 154, 155, 158, 159, 174, 175, 176, 177, 178, 179, 180, 181, 182, 190, 191, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 307 to 337, 351, 352, 353, 356 to 496) shall be **Retained** as it is, as per plan attached.

Whoever fells any tree or causes any tree to be felled in contraventions of the provisions of the Act or without reasonable excuse fails to comply with any order issued or condition imposed by the Tree Officer or the Tree Authority or voluntarily obstructs any member of the Tree Authority or the Tree Officer or any

Officers and Servants subordinate to him in the discharge of their functions under this Act, shall, on conviction, be punished with the fine of not less than one thousand rupees which may extend up to five thousand rupees for every offense and also with imprisonment for a term of not less than one week. Which may extend up to one year. The felling or causing of felling of each tree without the permission of the Tree Authority shall constitute a separate offense.

As per provision under section 19 (b) you are directed to plant trees in open spaces as well as R.G. Area as per the norms of Tree Authority before getting occupation /completion certificate of the constructed propose work.

As per direction of the Tree Authority, you are hereby directed to submit the photographs taken while transplanting of trees and the C.D. of the transplantation of the trees, you are also requested to plant indigenous variety of trees having circumference of 6" above and height of 10'-12' above. The list of indigenous variety of trees is enclosed herewith for your ready reference and compliance.

Thanking you.

Yours faithfully,

Supdt. of Gardens
& Tree Officer

LAYOUT PLAN FOR RG

ENVIRONMENTAL MANAGEMENT PLAN

MITIGATION MEASURES FOR DUST SUPPRESSION DURING CONSTRUCTION PHASE

1. Provide misting water sprays sufficient with pressurized nozzles to reduce airborne dusting from demolition work;
2. Apply additional water dust suppression applied during dry weather;
3. Avoid dust-generating work must be avoided on high wind days.
4. Spray water (amended with a small amount of detergent) during demolition, as required, to reduce airborne particle
5. Remove construction debris through approved route, covered, netted, or otherwise contained to prevent dust generation, or remove during off-hours times
6. Use of Anti-Smog Gun to reduce the dust particle during demolition work.
7. Logbook shall be maintained for the cleaning of vehicles going out from the project site,
8. Construction material shall be stored at designated covered space,
9. Topsoil shall be stacked with covering and moisture level shall be maintained to reduce the dust level in ambient air quality.

COST OF EMP – CONSTRUCTION PHASE

#	Particular	Parameters	Cost/sample	Locations	Samples per year	Capital Cost	O & M Year (Rs.)

CAUTION PUBLIC NOTICE

I, Mrs. Surinder Kaur Mander hereby publish this Caution Public Notice regarding the Flat No. 702, B Wing, Ganga Laxmi Sadaan Co-op. Hsg. Ltd., Plot No: 46-D, Shaheed Hemu Kalani Marg, Sindhi Society, Chembur, Mumbai - 400 071, the above-mentioned property belonged to my late husband Mr. Prabhjit Singh Mander. This property has 5 legal heirs namely: (i) Mrs. Surinder Kaur Mander, (ii) Mr. Balraj Singh Mander, (iii) Baldip Kaur Mander, (iv) Mr. Brinder Singh, (v) Nihal Singh Mander (Grandson).

CSB Bank Ltd does not have "Title Deeds" of the said flat. As per Section 58(1) of the Transfer of Property Act "Mortgage without "Title Deed" is invalid, therefore the said Auction is illegal.

PAAA Agreement that is in the custody of the Bank is not a "Title Deed". The Title of the said flat belongs to my late husband Mr. Prabhjit Singh Mander. There is no Registered Agreement that shows that Mr. Prabhjit Singh Mander transferred the said flat to Mrs. Surinder Kaur Mander. There are multiple Civil cases going on between CSB Bank Ltd., and the legal heirs pertaining to their shares in the above property which are as follows:

(i). S.A. filed by Baldip Kaur against CSB Bank Ltd., at DRT-II, Mumbai.
(ii). Appeal filed by Baldip Kaur against CSB Bank Ltd., at DRAT, Mumbai.
(iii). Civil Suit for declaration against CSB Bank Ltd., at City Civil Court, Mumbai.
(iv). Civil Suit filed by Service Tax Department of State of Maharashtra against CSB Bank Ltd., at Bombay High Court.
(v). Registered S.A.No. 171/2023 has been filed by Numeec Engineering Pvt. Ltd., against CSB Bank Ltd., at DRT-II, Mumbai.
(vi). Multiple different complaints have been filed against CSB Bank before the RBI, CBI, ED, NFRA & SPIO.

The CSB Bank Ltd., has fraudulently and illegally taken possession of the above said property and they are trying to illegally sell the said property by way of online/offline auction or by private treaty. Whoever tries to bid for the purchase of above said property is being abundantly cautioned that we shall defend the illegal sale of our above property with all our might through various legal actions. In spite of the various cases pending against the above said property whoever purchases the above said property shall do so at their sole risk, cost, consequences and damages which they may keep it mind.

SCHEDULE-IV

Conditions during construction phase

A	During construction phase, applicant shall provide temporary sewage and MSW treatment and disposal facility for the staff and worker quarters.
B	During construction phase, the ambient air and noise quality shall be maintained and should be closely monitored through MoEF approved laboratory.
C	Noise should be controlled to ensure that it does not exceed the prescribed standards. During night time the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.

General Conditions:

- 1 The applicant shall provide facility for collection of samples of sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
- 2 The firm shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act 1986 and Solid Waste Management Rule 2016, Noise (Pollution and Control) Rules, 2000 and E-Waste (Management & Handling Rule 2011.
- 3 Drainage system shall be provided for collection of sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No sewage shall be admitted in the pipes/sewers downstream of the terminal manholes. No sewage shall find its way other than in designed and provided collection system.
- 4 Vehicles hired for bringing construction material to the site should be in good condition and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
- 5 Conditions for D.G. Set
 - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
 - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
 - c) Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper siting and control measures.
 - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
 - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
 - f) D.G. Set shall be operated only in case of power failure.
 - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
 - h) The applicant shall comply with the notification of MoEFCC, India on Environment (Protection) second Amendment Rules vide GSR 371(E) dated 17.05.2002 and its amendments regarding noise limit for generator sets run with diesel.

- 6 Solid Waste - The applicant shall provide onsite municipal solid waste processing system & shall comply with Solid Waste Management Rule 2016 & E-Waste (M & H) Rule 2011.
- 7 Affidavit undertaking in respect of no change in the status of consent conditions and compliance of the consent conditions the draft can be downloaded from the official web site of the MPCB.
- 8 Applicant shall submit official e-mail address and any change will be duly informed to the MPCB.
- 9 The treated sewage shall be disinfected using suitable disinfection method.
- 10 The firm shall submit to this office, the 30th day of September every year, the environment statement report for the financial year ending 31st march in the prescribed Form-V as per the provision of rule 14 of the Environmental (Protection) Second Amended rule 1992.
- 11 The applicant shall obtain Consent to Operate from Maharashtra Pollution Control Board before commissioning of the project.

This certificate is digitally & electronically signed.

Government of India

(Issued by the State Environment Impact Assessment
Authority(SEIAA), MAHARASHTRA)

To,

The DGM
M/S GODREJ PROJECTS DEVELOPMENT LIMITED
Godrej one, 5th Floor, Pirojshanagar, Vikroli -400079

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/MH/INFRA2/430700/2023 dated 01 Jun 2023. The particulars of the environmental clearance granted to the project are as below.

1. EC Identification No.	EC23B039MH186162
2. File No.	SIA/MH/INFRA2/430700/2023
3. Project Type	Expansion
4. Category	B
5. Project/Activity including Schedule No.	8(b) Townships and Area Development projects.
6. Name of Project	M/s Godrej Projects Development Ltd.
7. Name of Company/Organization	M/S GODREJ PROJECTS DEVELOPMENT LIMITED
8. Location of Project	MAHARASHTRA
9. TOR Date	N/A

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 01/11/2023

(e-signed)
Pravin C. Darade , I.A.S.
Member Secretary
SEIAA - (MAHARASHTRA)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.

This is a computer generated cover page.

3. Proposal is an expansion of existing construction project. Project had received earlier Environment Clearance vide SIA/MH/MIS/68539/2021, dated: 13.09.2022 for the plot area of 30,443.00 Sq.Mtrs., FSI area of 1,58,058.39 Sq.Mtrs and the Total construction area of 3,18,234.39 Sq.Mtrs. Proposal has been considered by SEIAA in its 266th (Day-1) meeting held on 20th September, 2023. and decided to accord Environment Clearance to the said project under the provisions of Environment Impact Assessment Notification, 2006 subject to implantation of following terms and conditions-

Specific Conditions:

A. SEAC Conditions-

1. PP to obtain revise IOD/IOA/Concession Document/Plan Approval or any other form of documents as applicable clarifying its conformity with local planning rules and provisions as per the Circular dated 30.01.2014 issued by the Environment Department, Govt. of Maharashtra showing all required RG area on mother earth as per Hon'ble Apex Court order.
2. PP to obtain following NOCs & remarks as per amended planning:
a)HRC NOC; b) Revised Civil Aviation NOC; c) Revised Tree NOC.
3. PP to submit architect certificate mentioning that they have provided all required RG on mother earth as per the Hon'ble Supreme Court order regarding RG area.
4. PP to obtain concession from Municipal Commissioner, MCGM with respect to odd shape RG area proposed on mother earth.
5. PP to obtain certified compliance report of earlier EC from Regional Office, MOEF&CC, Nagpur.
6. PP to provide 2-row plantation along the railway track & also provide sound proof windows to minimise noise pollution.
7. PP to provide adequate 2-wheeler parking and ensure that 25% of 2-wheeler and 4-wheeler parking are equipped with electric charging facility; PP to submit parking statement for Rehab & MCGM buildings separately.
8. PP to submit revised energy calculation with terrace floor plan considering shadow analysis report with nos. of Solar PV panels & Solar Water heaters & ensure that the

energy savings from renewable sources shall be minimum 5 %.

9. PP to reduce discharge of treated water up to 35%. PP to submit undertaking from concerned authority/agency/third party regarding use of excess treated water.

B. SEIAA Conditions-

1. PP has provided mandatory RG area of 3044.25 m² on mother earth without any construction. Local planning authority to ensure the compliance of the same.
2. EC is restricted up to 135.15 m height for Sale Tower no 1 as per CFO NOC.
3. EC is also restricted for sale Tower no 2 up to 143.50 m as per HRC.
4. PP to keep open space unpaved so as to ensure permeability of water. However, whenever paving is deemed necessary, PP to provide grass pavers of suitable types & strength to increase the water permeable area as well as to allow effective fire tender movement.
5. PP to achieve at least 5% of total energy requirement from solar/other renewable sources.
6. PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF& CC vide F.No.22-34/2018-IA III dt.04.01.2019.
7. SEIAA after deliberation decided to grant EC for-FSI- 1,18,430.46 m², Non FSI- 1,57,828.38m², total BUA- 2,76,258.84 m². (Plan approval No- P-9221/2021/(354 and other)/F/North /DADAR NAIGAON/337/5/Amend, dated 18.07.2023) (Restricted as per approval).

General Conditions:

a) Construction Phase :-

- I. The solid waste generated should be properly collected and segregated. Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.
- II. Disposal of muck, Construction spoils, including bituminous material during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in the approved sites with the approval of competent authority.
- III. Any hazardous waste generated during construction phase should be disposed of as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.
- IV. Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.
- V. Arrangement shall be made that waste water and storm water do not get mixed.
- VI. Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices.
- VII. The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.
- VIII. Permission to draw ground water for construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.
- IX. Fixtures for showers, toilet flushing and drinking should be of low flow either by use

of aerators or pressure reducing devices or sensor based control.

- X. The Energy Conservation Building code shall be strictly adhered to.
- XI. All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
- XII. Additional soil for levelling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.
- XIII. Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
- XIV. PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.
- XV. The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.
- XVI. Vehicles hired for transportation of Raw material shall strictly comply the emission norms prescribed by Ministry of Road Transport & Highways Department. The vehicle shall be adequately covered to avoid spillage/leakages.
- XVII. Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.
- XVIII. Diesel power generating sets proposed as source of backup power for elevators and common area illumination during construction phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel is preferred. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.
- XIX. Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings by a separate environment cell /designated person.

B) Operation phase:-

- I. a) The solid waste generated should be properly collected and segregated. b) Wet waste should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. c) Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.
- II. E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.
- III. a) The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Treated effluent emanating from STP shall be recycled/ reused to the maximum extent possible. Treatment of 100% grey water by decentralized treatment should be done.

Necessary measures should be made to mitigate the odour problem from STP. b) PP to give 100 % treatment to sewage /Liquid waste and explore the possibility to recycle at least 50 % of water, Local authority should ensure this.

- IV. Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line. No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement.
- V. The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.
- VI. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
- VII. PP to provide adequate electric charging points for electric vehicles (EVs).
- VIII. Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.
- IX. A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.
- X. Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes.
- XI. The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at parivesh.nic.in
- XII. A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
- XIII. The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO₂, NO_x (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.

C) General EC Conditions:-

- I. PP has to strictly abide by the conditions stipulated by SEAC & SEIAA.
- II. If applicable "Consent for Establishment" shall be obtained from Maharashtra Pollution

- Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.
- III. Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.
 - IV. The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
 - V. The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.
 - VI. No further Expansion or modifications, other than mentioned in the EIA Notification, 2006 and its amendments, shall be carried out without prior approval of the SEIAA. In case of deviations or alterations in the project proposal from those submitted to SEIAA for clearance, a fresh reference shall be made to the SEIAA as applicable to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
 - VII. This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing committee of the National Board for Wild life as if applicable & this environment clearance does not necessarily implies that Forestry & Wild life clearance granted to the project which will be considered separately on merit.
4. The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.
 5. This Environment Clearance is issued purely from an environment point of view without prejudice to any court cases and all other applicable permissions/ NOCs shall be obtained before starting proposed work at site.
 6. In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environment clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.
 7. Validity of Environment Clearance: The environmental clearance accorded shall be valid as per EIA Notification, 2006, amended from time to time.
 8. The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its

amendments.

9. Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1st Floor, D-Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

 M/S GODREJ PROJECTS DEVELOPMENT LIMITED
 Godrej one, 5th Floor, Pirojshanagar, Vikroli -400079

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/MH/MIS/68539/2021 dated 28 May 2022. The particulars of the environmental clearance granted to the project are as below.

1. EC Identification No.	EC22B039MH110830
2. File No.	SIA/MH/MIS/68539/2021
3. Project Type	New
4. Category	B1
5. Project/Activity including Schedule No.	8(b) Townships and Area Development projects.
6. Name of Project	Godrej Projects Development Ltd
7. Name of Company/Organization	M/S GODREJ PROJECTS DEVELOPMENT LIMITED
8. Location of Project	Maharashtra
9. TOR Date	31 Mar 2022

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 13/09/2022

(e-signed)
Manisha Patankar Mhaikar
 Member Secretary
 SEIAA - (Maharashtra)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.

This is a computer generated cover page.

3. Proposal is a new construction project. Proposal has been considered by SEIAA in its 250th (Day-1) meeting and decided to accord Environment Clearance to the said project under the provisions of Environment Impact Assessment Notification, 2006 subject to implantation of following terms and conditions-

Specific Conditions:

A. SEAC Conditions-

1. PP to submit IOD/IOA/Concession Document/Plan Approval or any other form of documents as applicable clarifying its conformity with local planning rules and provisions as per the Circular dated 30.01.2014 issued by the Environment Department, Govt. of Maharashtra.
2. PP to obtain following NOCs & remarks as per amended planning:

- a)HRC NOC; b) Railway NOC; c) Revised Civil Aviation NOC; d) Revised Tree NOC.
3. PP to submit revised energy calculation with terrace floor plan considering shadow analysis report with nos. of Solar PV panels & Solar Water heaters & ensure that the energy savings from renewable sources shall be minimum 5 %.
4. PP to provide 2-row plantation along the railway track & also provide sound proof windows to minimise noise pollution.
5. PP to provide adequate 2-wheeler parking and ensure that 25% of 2-wheeler and 4-wheeler parking are equipped with electric charging facility; PP to submit parking statement for Rehab & MCGM buildings separately.
6. PP to include area of strip of 1.5 Mtr. RG area provided in total RG area & accordingly revise RG area calculation & dimensions.
7. PP to reduce discharge of treated water up to 35%. PP to submit undertaking from concerned authority/agency/third party regarding use of excess treated water.
8. PP to submit certificate from Structural Engineer stating the designs of buildings are proposed considering vibrations of railway.

B. SEIAA Conditions-

1. This EC is restricted up to 120 m height till PP obtains HRC NOC. Once PP obtains HRC NOC, height restriction will be as per HRC NOC.
2. This EC is restricted up to 156.17 m height as per civil aviation NOC. SEIAA decided to restrict the EC up to 156.17 m height till PP obtains revised civil aviation NOC. Once PP obtains revised civil aviation NOC, height restriction will be as revised NOC.
3. There are 497 trees existing on site and PP has proposed to cut 290 and to transplant 41 trees. SEIAA asked PP to plant as many trees as cumulative age of trees to be cut and transplanted as compensatory plantation. SEIAA also asked PP to strictly comply with amended Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975.
4. PP to keep open space unpaved so as to ensure permeability of water. However, whenever paving is deemed necessary, PP to provide grass pavers of suitable types & strength to increase the water permeable area as well as to allow effective fire tender movement.
5. PP to achieve at least 5% of total energy requirement from solar/other renewable sources.
6. PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF& CC vide F.No.22-34/2018-IA.III dt.04.01.2019.
7. SEIAA after deliberation decided to grant EC for – FSI – 148109.59 m², Non FSI- 142130.41 m², Total BUA- 290240.00 m². (Plan approval No.P-9214/2021/(335 and other)/F/North/Dadar-Naigaon/337/2/Amend, dated-13.01.2022, P-9221/2021/(354 and other)/F/North/Dadar-Naigaon/337/2/Amend, dated-13.01.2022)

General Conditions:

a) Construction Phase :-

- I. The solid waste generated should be properly collected and segregated. Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering

recyclable material.

- II. Disposal of muck, Construction spoils, including bituminous material during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in the approved sites with the approval of competent authority.
- III. Any hazardous waste generated during construction phase should be disposed of as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.
- IV. Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.
- V. Arrangement shall be made that waste water and storm water do not get mixed.
- VI. Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices.
- VII. The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.
- VIII. Permission to draw ground water for construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.
- IX. Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
- X. The Energy Conservation Building code shall be strictly adhered to.
- XI. All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
- XII. Additional soil for levelling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.
- XIII. Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
- XIV. PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.
- XV. The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.
- XVI. PP to strictly adhere to all the conditions mentioned in Maharashtra (Urban Areas) Protection and Preservation of Trees Act, 1975 as amended during the validity of Environment Clearance.
- XVII. Vehicles hired for transportation of Raw material shall strictly comply the emission norms prescribed by Ministry of Road Transport & Highways Department. The vehicle shall be adequately covered to avoid spillage/leakages.
- XVIII. Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to

reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.

- XIX. Diesel power generating sets proposed as source of backup power for elevators and common area illumination during construction phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel is preferred. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.
- XX. Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings by a separate environment cell /designated person.

B) Operation phase:-

- I. a) The solid waste generated should be properly collected and segregated. b) Wet waste should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. c) Dry/inert solid waste should be disposed of to the approved sites for land filling after recovering recyclable material.
- II. E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.
- III. a) The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Treated effluent emanating from STP shall be recycled/ reused to the maximum extent possible. Treatment of 100% grey water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP. b) PP to give 100 % treatment to sewage /Liquid waste and explore the possibility to recycle at least 50 % of water, Local authority should ensure this.
- IV. Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement.
- V. The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.
- VI. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
- VII. PP to provide adequate electric charging points for electric vehicles (EVs).
- VIII. Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.
- IX. A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.
- X. Separate funds shall be allocated for implementation of environmental protection

measures/EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes.

- XI. The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at parivesh.nic.in
- XII. Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1st June & 1st December of each calendar year.
- XIII. A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
- XIV. The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO₂, NO_x (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.

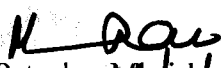

C) General EC Conditions:-

- I. PP has to strictly abide by the conditions stipulated by SEAC& SEIAA.
- II. If applicable Consent for Establishment" shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.
- III. Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.
- IV. The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
- V. The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.
- VI. No further Expansion or modifications, other than mentioned in the EIA Notification, 2006 and its amendments, shall be carried out without prior approval of the SEIAA. In case of deviations or alterations in the project proposal from those submitted to SEIAA for clearance, a fresh reference shall be made to the SEIAA as applicable to assess the adequacy of conditions imposed and to add additional environmental

protection measures required, if any.

- VII. This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing committee of the National Board for Wild life as if applicable & this environment clearance does not necessarily implies that Forestry & Wild life clearance granted to the project which will be considered separately on merit.

4. The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.
5. This Environment Clearance is issued purely from an environment point of view without prejudice to any court cases and all other applicable permissions/ NOCs shall be obtained before starting proposed work at site.
6. In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environment clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.
7. Validity of Environment Clearance: The environmental clearance accorded shall be valid as per EIA Notification, 2006, amended from time to time.
8. The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its amendments.
9. Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1st Floor, D-Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
